

2025 AFFORDABLE CARE ACT (ACA) PLANS

FOR YOU & YOUR FAMILY

Arkansas
BlueCross BlueShield

An Independent Licensee of the Blue Cross and Blue Shield Association

WHY CONSIDER AN ACA PLAN?

- 1 YOU CAN'T BE TURNED DOWN.**
You'll be able to enroll in a health insurance plan even if you have a pre-existing condition.
- 2 YOU MIGHT SAVE MONEY.**
We can tell you if you qualify for financial assistance that will help lower your monthly premiums. The majority of members who buy plans on the Health Insurance Marketplace receive financial assistance.
- 3 ENROLLING IS EASY.**
Each year, there is an Open Enrollment Period (OEP). This is your chance to join or switch to the health plan you really want.
 - The OEP for 2025 is November 1, 2024 to January 15, 2025. Enroll by December 15, 2024 for coverage to start January 1.
 - It's possible to enroll outside the OEP. Significant events such as marriage, childbirth or losing employer coverage might make you eligible.*
- 4 ESSENTIAL HEALTH BENEFITS ARE COVERED.**
Our plans cover all essential health benefit categories required by the healthcare law. To learn more, see page 6.

WHY AREN'T THERE MONTHLY PREMIUMS ON THIS GRID?

Our qualified health plans are age-, tobacco- and area-rated, meaning the monthly premium is based on your age, residence and tobacco usage. Also, depending on your annual income, you may qualify for financial assistance, which would lower your monthly premium. Through government financial assistance, many Arkansans will be able to get a health plan for a very low cost and maybe even free. (Note: Information in the grid represents in-network benefits.)

MAKING SENSE OF SECURITY

Coinsurance

Coinsurance is your share of the costs, usually after you've met your deductible. For example, if your plan pays 80% for a service, you would pay 20% in coinsurance. With your Arkansas Blue Cross plan, when you reach your out-of-pocket max, you no longer have to pay coinsurance for covered services.

Copays

Copays are what you pay at the doctor or pharmacy. They do not count against your deductible. An example would be paying \$25 at a doctor's visit or \$15 for a prescription. With your Arkansas Blue Cross plan, when your out-of-pocket max is met, you no longer have to pay copayments for covered services.

Essential Health Benefits*

Our plans cover the essential health benefit categories required by the healthcare law. The essential health benefit categories are: ambulatory patient services, emergency services, hospitalization, pregnancy, maternity and newborn care, mental health and substance use disorder services, prescription drugs, rehabilitative and habilitative services and devices, laboratory services, preventive and wellness services and pediatric services.

Out-of-Pocket Maximum

The out-of-pocket max is the most you'll spend for covered medical services in a year. After you reach this amount, you will no longer have to pay coinsurance or deductibles. (This does not include your monthly premium.)

Primary Care Provider (PCP)

A doctor who directly provides or coordinates a range of healthcare services for a patient (also known as a family doctor, general practitioner, internal medicine doctor or pediatrician).

Qualifying Life Event

A change in your life that makes you eligible to make changes to your current plan or enroll in a health plan outside of the Open Enrollment Period. Examples include moving to a new state, losing employer coverage, marriage, divorce or birth of a child.

*Our plans do not include pediatric dental services. Pediatric dental coverage is available in the Health Insurance Marketplace and can be purchased as a stand-alone product.

Annual Limit On Cost Sharing

The maximum amount a member is required to spend in a year before the insurance company begins paying 100% of that member's covered health care expenses for the remainder of the year. The monthly premium does not count toward the annual limit on cost sharing.

- Individual Annual Limit on Cost Sharing = If there is one person on the policy, you have an individual annual limit on cost sharing.
- Family Annual Limit on Cost Sharing = If there are two or more persons on the policy, you have a family annual limit on cost sharing. There are two ways a family can meet its annual limit on cost sharing:
 1. All family members together meet the family annual limit on cost sharing. Then, Arkansas Blue Cross begins paying 100% of covered services for all family members.
 2. One person in the family meets the individual annual limit on cost sharing. Then, Arkansas Blue Cross begins paying 100% of that person's covered health expenses. The rest of the family, in any combination, must then meet the remainder of the family annual limit on cost sharing before Arkansas Blue Cross begins paying 100% of covered services for the rest of the family.

Deductible

The amount a member must spend on medical expenses before the insurance plan begins to pay. Medical services covered by a copayment are paid by the plan even before the deductible is met. The monthly premium does not count toward the deductible.

- Individual Deductible = If there is one person on the policy, you have an individual deductible.
- Family Deductible = If there are two or more persons on the policy, you have a family deductible. There are two ways a family can meet its deductible (see example at bottom of page):
 1. All family members together meet the family deductible. Then, Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for all family members.
 2. One person in the family meets the individual deductible. Then, Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for that person. The rest of the family, in any combination, must then meet the remainder of the family deductible before Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for the rest of the family.

How Does a Family Deductible Work?

EXAMPLE:

A family of three (Mr. Smith, Mrs. Smith and Johnny Smith) has a plan with a \$500 individual deductible and \$1,000 family deductible. Mr. Smith meets the \$500 individual deductible. Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for Mr. Smith only.

SCENARIO 1

Mrs. Smith or Johnny Smith meets the \$500 individual deductible. Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for all family members.

SCENARIO 2

Mrs. Smith and Johnny Smith together reach the remaining \$500 of the \$1,000 deductible, and Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for all family members.

When one family member reaches his or her individual deductible, Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for that person. When the remaining family members reach the remaining portion of the family deductible (either individually or collectively), Arkansas Blue Cross begins paying for covered services at the applicable coinsurance for all family members.

Many Arkansans may be eligible to receive a tax credit that could lower their monthly health insurance premium. Some may receive a tax credit so they will have a very low or even \$0 monthly premium. Many Arkansans may be able to get free health insurance through a program called ARHOME. Many Arkansans may qualify for an Arkansas Blue Cross health insurance plan with no monthly premium. With ARHOME, you can see any Arkansas Blue Cross doctor you choose, your preventive care will be covered at no cost to you and you'll receive access to the kind of high-quality healthcare for which Arkansas Blue Cross has built a reputation. We can help you find out if you qualify for a free health insurance plan from Arkansas Blue Cross.

The Affordable Care Act (ACA) includes a number of special provisions for American Indians and Alaskan Natives, such as: 1) They can get services from the Indian Health Services, tribal health programs or urban Indian health programs; 2) They may receive services at no cost sharing; and 3) They may have special monthly enrollment periods.

For out-of-network coverage within the state of Arkansas, cost sharing increases and the balance billing (the difference between the provider's bill and the Arkansas Blue Cross and Blue Shield allowed amount) must be paid by the policyholder. Arkansas Blue Cross qualified health plans have limitations and terms under which the insurance policy may be continued or discontinued. The plans are age-rated, area-rated, and tobacco-rated, meaning premiums are based on the age, residence and tobacco usage of the covered person.

These plans do not include BlueCard, which is access to the national Blue Cross provider network. Out-of-area benefits are restricted to urgent or emergent services and/or services that receive prior approval. Urgent, emergent and prior approved services may be subject to balance billing by the provider and must be paid by the policyholder.

Benefits and Services Not Included: Injuries or diseases caused by war; dentistry (except for some oral surgery); eye refractions, eyeglasses for adults unless needed because of accidental injury; cosmetic surgeries, unless needed because of accidental injury; services or supplies not medically necessary; medical or hospital services collectible under Workers Compensation or any law providing benefits for dependents of military personnel; services rendered in government hospitals; inpatient services, if they could have been performed safely and adequately on an outpatient basis; services and supplies which are experimental or investigational in nature; benefits provided under Medicare or other government programs (except Medicaid); services of social workers, unless included as part of the daily room and board allowance; radial keratotomy or epikeratophakia or any services performed to correct

nearsightedness; hospital and physician services for rest cures; services by an immediate relative (spouse, parents, children, brother, sister or legal guardian); dietary supplements when used in connection with weight reduction programs. Benefits and services are not included for any treatment (surgical or nonsurgical) for weight loss. Renewal may be refused by class.

Limitations of Hospital Benefits: Arkansas Blue Cross requires pre-admission approval for all non-emergent hospital admissions. Out of Area non-emergent hospital admissions are not covered if the service is available in the Policy's Service area. For prior approval please call the toll-free number on the back of your ID card. Services rendered in a hospital outside of the United States of America will be paid at the sole discretion of the Plan.

Subrogation: If benefit payments are made for which a third party may be liable, Arkansas Blue Cross is entitled to recover out of payments made by that third party to the full extent of benefits paid.

Coordination Against Group and Major Medical Coverage: Benefits for services or supplies available to you under any other group or blanket disability insurance, Union Welfare Plan, employer or employee benefit organization, self-insurance or any other non-regulated group disability benefits plan, major medical policy or no-fault automobile liability insurance will be coordinated so that the total amount of benefits payable from all these plans combined does not exceed 100% of actual medical expenses.

IMPORTANT NOTE: Your premium will be accepted after coverage has been approved. This product brochure provides a brief description of the important features of the Arkansas Blue Cross qualified health benefit plans evidence of coverage. This brochure is not the evidence of coverage, and only the actual provisions will control. The evidence of coverage itself sets forth in detail the rights and obligations of both you and your health benefit plan. It is, therefore, important that you read the evidence of coverage carefully. Changes to this evidence of coverage only may be made during the annual open enrollment period or as a result of a special enrollment period.
