

Dental Insurance Made Easy

For small businesses

Taking care of your employees' dental health doesn't have to be difficult. Our small group dental plans come with the convenience of standard pricing and streamlined quoting. And when you combine our health and dental, your employees benefit from integrated care programs that promote their total health.

Our dental and medical plans work together to help your employees live healthier.

#1 dental network in Arkansas

Our dental network boasts over 1,100 providers statewide and more than 100,000 dentists in the U.S. Better yet, our PPO Plus network is recognized for having the top effective discounts in Arkansas.¹ Effective discounts reflect the total savings that members realize when they use our network.

Driving better health and lower costs

Employees with eligible medical conditions affected by oral health are automatically enrolled in Dental XtraSM. A recent Mayo Clinic study found that people enrolled in this medical-dental integration program achieved better health outcomes and realized significant cost savings when they followed the program's treatment protocols.

Making it easy for members

When you offer your employees Arkansas Blue Cross health and dental plans, they can conveniently access all of their benefits in one place through Blueprint Portal. We're here to help — whether online, over the phone or at one of our ArkansasBlue Welcome Centers across the state.

Members' benefits go further

Our shelf-rated plans provide everything an employee needs — with no waiting periods to worry about. On top of that, our Calendar Year Rollover program allows your employees to accumulate a portion of their unused benefit dollars for use in future years, ensuring their benefits go further.
