

Eligibility Attestation Form for the SSBCI Food & Produce Benefit on BlueMedicare Independence (HMO)

Arkansas Blue Medicare's Food & Produce Benefit on the Walmart Wellness Benefits Card is an SSBCI (Special Supplemental Benefit for the Chronically Ill) benefit offered on our BlueMedicare Independence (HMO) plan. SSBCI benefits are only available to members who've been diagnosed with certain chronic illnesses including, but not limited to: Cancer, chronic heart failure (CHF), diabetes, osteoporosis, or stroke. Even if you have one of the listed chronic conditions, you may not receive the benefit because coverage depends on you being identified as a chronically ill member.

We will use claims information to verify a member's qualifying chronic illness for our Food & Produce benefit. If you are a new member and we don't have claims information immediately available, you can complete the attestation form on the next page. We'll contact your healthcare provider to confirm your diagnosis. Or to help expedite the process, you can submit a summary of your diagnosis from your most recent provider visit for approval. Following this, you will receive a letter confirming the Food & Produce allowance on your Walmart Wellness Benefits Card has been activated.

If we do not receive claims information confirming your diagnosis of a qualifying chronic illness within six months of your BlueMedicare Independence (HMO) membership effective date, we'll send a letter to let you know your eligibility for the Food & Produce benefit is at risk of ending.

You can email, fax, or mail your completed attestation form along with your provider's summary of your diagnosis to the following.
